Apr 7th-9th - A vigorous and cold storm brought widespread precipitation to the majority of the Beehive State. Snow fell generally above the 5000 foot level, with the greatest amounts across the Wasatch Range and over the southwest mountains. Strong and gusty winds were prevalent ahead of and just behind the associated cold front.

Top (Left): A light mix of rain and snow in South Ogden. (Right): Light snow falling in Upper Millcreek.
Bottom (Left): Snow accumulating in Liberty. (Right): Snow starting to get quite heavy at Alta Lodge.

Apr 14th-16th - A very powerful storm system and associated cold front dealt a heavy blow to the Beehive State. Destructive winds blew ahead of the front, producing widespread blowing dust with visibilities near zero at times across the west deserts. The restriction to visibility led to a chain reaction pileup on I-80 east of Wendover which killed one man and injured 25 others. The wind also knocked over a semi on I-215 in Salt Lake City. Two buildings had significant roof damage from the wind in Bountiful, several large trees were uprooted in the Salt Lake Valley. A cabin in Sevier County was destroyed by a windswept wildfire, numerous power outages were reported along the Wasatch Front, and the Salt Lake Int'l Airport was shut down for several hours. As the front pushed through the state, muddy rain changed quickly to heavy snow in many areas, resulting in hazardous driving conditions which caused numerous traffic accidents.

Apr 24th-26th - A potent and very moist storm system brought widespread rainfall to the majority of Utah over a 3-day period. Snow fell across the mountains with a little light snow on some of the higher benches toward the end of the event. Over 2 inches of rain fell along the northern Wasatch Front mainly in Davis and Weber counties. Some thunderstorms across the north produced very heavy rain and small hail as well. Strong gusty winds also developed across much of the state as the associated cold front moved through, with the strongest winds confined to the west deserts and southwest Utah.
